## **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: claims 1, and 3-16 are allowed over the prior art of record. The prior art of record teach removal of particulate matter from aqueous suspension, e.g. yeast from beer by Crossflow microfiltration using ceramic membranes, selection of a particular ceramic membrane depending of pH and Zeta potential of the particulate in the suspension is not suggested. The process of the invention requires that either the pH of the suspension be monitored to rich to the same zeta potential of a particular ceramic membrane, or that the membrane material (ceramic) be capable of having the same Zeta potential at a predetermined pH condition, which is also not found in the prior art of record. The present amendment is supported by the specification, page 5, last paragraph, bridging page 6, lines 1-8, page 8, lines 25-31, and page 9 lines 1-17.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ana M Fortuna whose telephone number is (571) 272-1141. The examiner can normally be reached on 9:30-6:00 M-F.
